Useful tips...

- When the bike seat is occupied, the performance of the bike will change. Cycling style needs to be adapted accordingly.
- It is advised that children wear an appropriate cycle helmet.
- Especially on longer journeys, children should be offered some refreshments and allowed plenty of breaks.

JOCKEY Relax
& **JOCKEY Comfort**

Bike riding can be so comfortable

The RÖMER JOCKEY offers a comfortable seating position and provides ideal protection during a bike ride

To ensure that children are well protected on a bike ride, we have developed the RÖMER JOCKEY bike seats with their safety in mind. Our bike seats meet the latest European Standard DIN EN 14344 for the TÜV/GS Test. The extra large spoke cover is an integral part of the bike seat and prevents the child's legs from getting caught in the wheel spokes, therefore reducing the risk of injury. The backrest adjustment is operated single-handedly, allowing the user to easily change the seat position from upright to reclined. Children can sit back comfortably and enjoy the ride.

JOCKEY Comfort also features a height-adjustable headrest that can move up and down to suit the child's height, without the need to unthread the harness shoulder straps.

up to 22 kg
